

AIMCE'26

The Second International Workshop on Artificial Intelligence, Mechanical and Civil Engineering

CALL FOR PAPERS

AIMCE'26

The aim of the AIMCE'26 is to enable scientists, industrialists, engineers and university students from all over the world to present their research activities, and to strengthen research relations between universities and industry.

Symposium Topics

The AIMCE'26 workshop covers all research fields and engineering applications in civil, mechanical, and physical engineering. Potential topics include, but are not limited to, the following:

- » Civil engineering Structural behavior.
- » Advanced mechanical system design
- » Infrastructure engineering
- » Innovative construction materials
- » Seismic construction
- » Nonlinear and seismic analysis of structures
- » Energy systems and energy efficiency Hydrology
- » AI and Robotics Renewable energy
- » Intelligence Smart Cities
- » Industrial control and optimization
- » Environmentally friendly materials and processes
- » Economic sciences, management

Workshop publication

All AIMCE26 selected papers will be submitted for publication in workshop proceedings by Springer book series

Honorary Committee

- Pr. Houssine AZEDDOUG
(President of Hassan II University, Casablanca)
- Pr. Abdelmajid BADRI
(Director of ENSAM-Casablanca)

General Chair

- Pr. Benaïssa KISSI (Hassan II University of Casablanca)

Co-Chair

- Pr. Chafik GUEMIMI (Hassan II University of Casablanca)

Organization Committee Chair

- Pr. Hamza KHATIB (Hassan II University of Casablanca)
- Pr. Adil ZIRAOUÏ (Hassan II University of Casablanca)

Keynote Speakers

- Pr. El Habib BEN LAHMAR (Hassan II University of Casablanca)
- Pr. Mohamed AZZOUAZI (Hassan II University of Casablanca)
- Pr. Hassan AAYA (International University of Casablanca)

Registration fees

- PhD students: 500 DHS
- University professors and academicians: 800 DHS
- Industrials and exhibitors: 1000 DHS

Submission of Papers

Authors should submit a 10 pages original manuscript (for regular paper submissions). Papers must follow the standard SPRINGER Manuscript Templates for workshop Proceedings.

Important Dates

February 28, 2026 Paper Submission Deadline	March 15, 2026 Accept/Reject Notification	March 24, 2026 Registration	April 9, 2026 Workshop Date
